Your Safety - Our Concern!

Life jackets are the best insurance you can have if you're on or around the water — though unfortunately many of us don't take them seriously enough. The fact is, simply wearing a life jacket can save swimmers as well as non-swimmers who are suddenly in the water and may be unconscious, fatigued, in shock, inebriated, surprised, panicked — or all of the above. **Be sure you have the proper type of life jacket and wear it: once you're in the water, it may be too late to think about putting it on.**

REMEMBER: Your life jacket is a life saver — but only if you wear it.
