## Notice to the Media

### *Temporary Closure of Corps Launch Ramps on Dale Hollow Lake*

CELINA, TENN, December 3, 2007 - Public launching ramps at Pleasant Grove, Lillydale and Obey River Park day use areas on Dale Hollow Lake will be closed immediately the U.S. Army Corps of Engineers announced today. Lower than average lake levels for this time of year is providing an opportunity for the Corps to extend the ramps at these popular launching locations. Depending on weather, the ramps are expected to be closed most of the month with a target date to reopen on Christmas Eve. Some alternate launch sites can be found at nearby marina facilities. For a listing of existing ramp elevations, visit our website at [www.lrn.usace.army.mil/op/DAL/rec](http://www.lrn.usace.army.mil/op/DAL/rec). The ramp elevations chart is located at the bottom of the home page.
