SUBJECT: Tow Haulage Unit Outage, Chickamauga Lock, Tennessee River Mile 471.0

Chickamauga Lock's tow haulage unit is in need of substantial repairs. As a result, the haulage unit will be removed from service on Monday, 1 May 2006 to allow the necessary repairs to be made. Repairs are estimated to be completed by Sunday, 7 May 2006.

Because the towing vessel will be required to lock with each cut, traffic will experience increased lockage times during this period. Questions regarding this activity can be addresses to the Lockmaster at Chickamauga Lock at (423) 875-6230 or via marine radio.
