SUBJECT: Mooring Cell Replacement, Tennessee River Mile 245.2, Left Bank

Southern Marine Construction will begin removal and replacement of the Number 21 mooring cell at the subject location on 24 April 2006. Work will be performed during daylight hours and should be completed by 15 June 2006. Floating plant will consist of the M/V TRAILBLAZER, a 195' x 35' crane barge and several standard deck barges. During non-working hours, the floating plant will be moored on-site along the left descending bank.

Vessel operators are requested to reduce speed and hold a safe distance off the floating plant when transiting this area to reduce the possibility of their vessel wake causing equipment damage or personal injury.

FOR THE DISTRICT ENGINEER:
