CELRN-OP-N PO Box 1070, Nashville, TN 37202-1070 (615) 736-5607

SUBJECT: Construction to begin at Chickamauga Lock TRM 471.0 Left descending guide wall.

The C.J. Mahan Company has begun pre demolition activities of the lower left descending guide wall at Chickamauga lock. The demolition of this wall will be forthcoming in the weeks ahead with a scheduled completion date at the end of February 2008. This work will cause varying locking conditions in the lower approach area and result in delays to navigation. Upon arrival at Nickajack TRM 424.7 and Watts Bar Locks TRM 529.9, Mariners are requested to contact the lock operator on duty at Chickamauga lock for an update at that time for delays and or special locking instructions.

Additional comments or questions may be directed to the Lockmaster, Mr. Matt Emmons at (423) 875-6230. All mariners should transit this area with caution.

FOR THE DISTRICT ENGINEER:

JEFFREY D. ROSS
Chief, Navigation Branch
Operations Division
