Maintenance Work to Begin at Center Hill Dam

NASHVILLE, TENN. (February 7, 2006) - Beginning about February 20, previously scheduled maintenance work will begin on vertical expansion joints in the upper portion of Center Hill Dam adjacent to each end of the spillway.

The maintenance work will take approximately eight weeks to complete. During the work, one lane of the bridge across the dam will be closed and the traffic will be regulated by timed signals.

For more information, call Bill Peoples, Chief of Public Affairs, at (615)736-7161.
