The following conditions apply and must be observed or this permit may become void and removal of the structure may be at your expense:

1. The Lake Barkley Corps of Engineers navigation charts will be used to mark the location where you wish to place the attractors.
2. A description of the attractor and material to be used must be submitted before a permit will be issued.
3. No vegetation may be cut on public property.
4. Preserved or pressure treated wood materials will not be permitted. Only brush and non-treated wood products will be permitted.
5. Buckets used for stake beds are approved; however the buckets must be free of all residues prior to being used as part of fish attractor.
6. Attractors must be placed minimum depths of five feet at winter pool elevation 354' above mean sea level (m.s.l.).
7. Attractors will not be permitted in primary or secondary navigation channels.
8. Attractors will be anchored with concrete, concrete blocks and/or rocks to hold the attractors in place.
