B. REQUIRED ADDITIONAL COMMENTS TO SUPPORT JD. EXPLAIN RATIONALE FOR DETERMINATION THAT THE REVIEW AREA ONLY INCLUDES DRY LAND: USACE performed a site visit to the property on 4/13/2018. The immediate area had been consistently disturbed as the area is a mowed lawn landscape. Soil map shows hydric soils adjacent to the property, but the immediate area does not display the proper color/chroma to be eligible as hydric. No indication of hydric vegetation, and a local drainage is off property with no connection to the area. USACE has determined the JD area to be non-jurisdictional due to not meeting the three wetland parameters listed in the 1987 Corps Delineation Manual.

¹ This form is for use only in recording approved JDs involving dry land. It extracts the relevant elements of the longer approved JD form in use since 2007 for aquatic areas and adds no new fields.
